

PERMISSION TO USE DORDICK GROUP EQUIPMENT

Terms of Use:

I, _____, understand that I am responsible for the equipment and areas around the equipment in the Dordick Laboratories (Biotech 4338 and auxiliary rooms). I will be responsible for leaving the area as I found it with no waste, supplies or chemicals out of place. I will provide all the necessary supplies for my experiments (chemicals, solvents, pipettors, tips etc.). I will not use Dordick Group supplies unless given permission by a Dordick group member.

I will familiarize myself with the log books associated with the instrumentation and fill them out accordingly.

Each instrument in the Dordick Laboratory has a group member responsible for its care. I will seek out this person and request training prior to initial use. If I have any questions, I will set up an appointment to discuss the issue. I understand that if I damage the equipment in any way during use that I will report it and be responsible for any costs incurred as a result of this damage. I recognize that I cannot run experiments for, or train any other member of my group on the equipment.

Failure to meet these requirements will result in immediate suspension of use.

Equipment Requested:

Dordick Group member responsible for equipment:
